

FOG 1550 FT

PRODUCT CODE RO-10090003

FOG 1550 FT™ ensures that only the purest, driest white fog is produced. The electronic fluid level sensor stops operation in low-fluid situations offering complete protection to the heavy-duty and silent running pump and the 100% pure aluminium cast heater. FOG 1550 FT™ is the perfect solution for productions needing intensive effects. FOG 1550 FT™ also caters to the portability needs of the touring and rental markets with custom flight cases available for this fogger.

ROBE

ITEM	SPECIFICATION
Power	AC 100, 120, 230, 240 V, 50-60 Hz
Heater	1500W
Output	20,000 cu.ft/min
First Heat up Time	8.5 min
Fluid Consumption Rate	8.5 min/litre (100% Output)
Tank Capacity	6ltr
Low Fluid Indicator	Blue LED
Remote Included	Timer Remote
Weight	13.2 kg
Dimensions	646 x 240 x 190mm
Fluid used	Stage Formula Smoke Fluid or Global Mix Smoke Fluid

FOG 1000 FT

PRODUCT CODE RO-10090060

FOG 1000 FT™, is designed for special purposes and applications for which no other fog machines are available. It uses mirror piping heater technology that supports advance features and high-throughput burst mode, with extreme low energy consumption.

This unique design offers great versatility, and the machine can be mounted either on the ground with the output directed upwards to create a column effect, or can be wall mounted for easy blending in with the surroundings. It can also be used in the upright position via the carrying handle just like any standard fog machine. On-board DMX or in-built electronic low fluid detector are amongst another features. Lightweight, sleek and compact design, easy installation and maintenance. FOG 1000 FT™ is perfect for theatrical and studio applications, large halls and spaces, concerts and touring, DJ events and clubs.
