SECTION 4 FIRST AID MEASURES

Description of necessary first aid measures

Inhalation:	Remove victim from exposure if safe to do so. If rapid recovery does not occur, transport to nearest medical facility for additional treatment. Remove contaminated clothing.
Skin Contact:	If skin contact occurs, remove contaminated clothing and wash skin thoroughly with water and follow by washing with soap if available. If irritation occurs seek immediate medical assistance.
Eye Contact:	If in eyes, hold eyes open, flood with water for at least 15 minutes. In all cases of eye contamination it is sensible to seek medical advice.
Ingestion:	If swallowed rinse mouth with water and give a glass of water to drink. If vomiting occurs give further water. Seek medical advice.

Symptoms caused by exposure

Inhalation:	May cause mild irritation to respiratory system.
Skin:	May cause mild irritation – itching and redness.
Eye:	May cause mild irritation - redness and burning.
Ingestion:	May result in nausea, vomiting and abdominal pain.

Medical attention and special treatment

Treat symptomatically.

SECTION 5 FIRE FIGHTING MEASURES

Suitable extinguishing equipment

Use water fog or spray, foam, dry agent.

Specific hazards arising from the chemical

Carbon monoxide and/or carbon dioxide may be evolved.

Special protective equipment and precautions for fire fighters

Combustible material. Wear full protective clothing and self-contained breathing apparatus.

SECTION 6 ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Slippery when spilt. Wear protective equipment to prevent skin and eye contact and breathing in vapours. Work upwind or increase ventilation. Shut off leaks, if possible without personal risks. Isolate hazard area and deny entry to unnecessary or unprotected personnel.

Environmental precautions

Contain and prevent runoff into waterways and drains.

Methods and materials for containment and cleaning up

For spills, absorb with dry earth, sand or other non-combustible and inert material. Collect and seal properly labelled containers or drums for disposal. Wash down area with excess water. Dispose of safely in accordance with regional regulations.

SECTION 7 HANDLING AND STORAGE

Precautions for safe handling

Combustible C2 liquid. Avoid contact with eyes, skin and clothing. Do not ingest. Handle open containers in well ventilated area. Ensure that the workplace is ventilated adequately. Do not empty into drains. Wash thoroughly after handling. Do not eat, drink or smoke in contaminated areas. Before eating, drinking or smoking, remove contaminated clothing and wash hands.

Product: CLS Major Smoke**Conditions for safe storage, including any incompatibilities**

SECTION 8 EXPOSURE CONTROLS AND PERSONAL PROTECTION**Exposure control measures**

From National Occupational Health & Safety Commission (NOHSC) Worksafe Australia -
No exposure standard documented.

Biological monitoring

No biological limit allocated.

Engineering controls

Ensure that adequate ventilation is provided. Avoid generating and inhaling mists and vapours. Keep containers closed when not in use.

Individual protection measures

Eye and face protection:	Wear safety goggles.
Skin protection:	Use solvent resistant gloves, nitrile for longer term protection or PVC and neoprene for incidental splashes.
Respiratory protection:	If work practices do not maintain airborne level below the exposure standard, use appropriate respiratory protection equipment. When using respirators, select an appropriate combination of mask and filter. Select a filter for organic gases and vapours (boiling point > 65°C). Respirators should comply with AS1716 or an equivalent approved by a state/territory authority.
Thermal hazards:	Not applicable.
